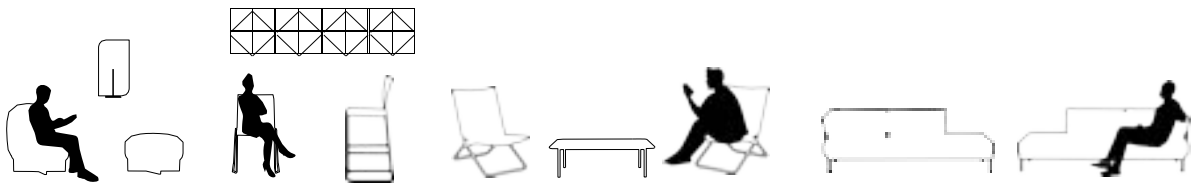
MADE IN ITALY

Contract furniture

As pure expression of Made in Italy, Gaber interprets that balance between craftsmanship and industry by creating furnishings able of satisfying the tastes and needs of its international audience, with a high level of customization and a wide range of finishes.
Gaber designs, develops and produces furniture for the contract world, responding to the needs of design, flexibility and quality. Production efficiency, continuous research and great attention to details make it possible to create practical, versatile and long-lasting furnishing solutions.

Pura espressione del Made in Italy, Gaber interpreta quell'equilibrio tra artigianato e industria che si realizza in arredi capaci di soddisfare gusti ed esigenze di un pubblico internazionale, con un alto livello di personalizzazione e ampia gamma di finiture.
Gaber progetta, sviluppa e produce arredi per il mondo contract rispondendo a esigenze di design, flessibilità e qualità. Efficienza produttiva, ricerca continua e grande attenzione ai dettagli permettono di realizzare soluzioni di arredo pratiche, versatili e durature.



IN THE NATURAL RESPECT:
NEL RISPETTO DELLA NATURA:

Gaber both develop and produce commercial design furniture, enabling the realization of innovative products that **take into account both human and environmental safety.**
Since 2000, Gaber has avoided the use of pollutants and has instead encouraged the use of the most valued recycled materials. Gaber carefully launches products complying with the environmental laws in complete respect of the rules, thereby promoting the prevention of environmental pollution.
Safeguarding the environment and a continual search for eco-friendly solutions play an important role within our company where, in recent years, all new launches have been designed and manufactured with respect for our natural environment.

Gaber progetta e produce complementi d'arredo di design, permettendo la realizzazione di prodotti innovativi che **tengano sempre conto della sicurezza umana e ambientale.**
Dal 2000 Gaber ha evitato l'uso di sostanze inquinanti, incoraggiando invece, l'uso dei materiali riciclati. Gaber, sempre attenta al lancio sul mercato di prodotti conformi alle più severe leggi di salvaguardia dell'ambiente, promuovendo così la prevenzione dell'inquinamento ambientale.
La salvaguardia dell'ambiente e la continua ricerca di soluzioni eco-compatibili giocano un ruolo importante all'interno dell'azienda dove tutti i nuovi prodotti sono progettati e realizzati nel rispetto dell'ambiente naturale.

MATERIALS
MATERIALI

Gaber production employs exclusively high-tech thermoplastic materials, which are 100% recyclable. Each techno-polymer item is marked with a specific symbol, which shows the kind of polymer for a quick identification and a consequent recycling. Gaber produces plastic injected materials without added chemicals. These materials are purchased within the European Union, so Gaber is exempted from registration with ECHA agency (European Agency for Chemicals Substances), in the complete respect of “Reach Regulation”. As far as possible, recycled plastics are sourced as a base raw material, recovered post-consumption.

La produzione Gaber impiega esclusivamente materiali termoplastici altamente innovativi, riciclabili al 100%. Ogni articolo in tecnopolimero è contrassegnato da un simbolo specifico, che identifica il tipo di polimero per una rapida identificazione ed un conseguente corretto riciclaggio. Gaber produce materiali in tecnopolimero iniettato senza aggiunta di sostanze chimiche. Questi materiali sono acquistati all’interno dell’Unione Europea, pertanto Gaber è esente dalla registrazione presso l’agenzia ECHA (Agenzia europea per sostanze chimiche), nel pieno rispetto del “Reach Regulation”. Per quanto possibile, i materiali plastici riciclati vengono acquistati come materia prima di base, recuperati da postconsumo.

METAL

Gaber metal structures, in the full respect of our natural environment, are available with “trivalent” chroming and painted finishes. Prime-quality special epoxy powder coating used on Gaber frames enhance color stability from batch to batch and over time, increasing its corrosion resistance and achieving excellent resistance to atmospheric agents.

Le strutture metalliche Gaber, nel pieno rispetto del nostro ambiente naturale, sono disponibili con cromature “trivalenti” e finiture verniciate. La speciale verniciatura a polvere epossidica di prima qualità utilizzata sui telai Gaber migliora la stabilità del colore da lotto a lotto e nel tempo, aumentandone la resistenza alla corrosione e ottenendo un’ottima resistenza agli agenti atmosferici.

WOOD

Wooden products are manufactured in accordance with the European Regulations in force regarding formaldehyde emissions from wood-based products (E1 according EN717-EN120). Gaber uses wooden raw materials coming from PEFC chain of custody certified materials.

I prodotti in legno sono realizzati in conformità alle Normative Europee vigenti in materia di emissioni di formaldeide da prodotti a base di legno (E1 secondo EN717-EN120). Gaber utilizza materie prime in legno provenienti da materiali certificati catena di custodia PEFC.

PACKAGING

Corrugated paperboard carton boxes, printed with environmentally friendly inks, are made of at least 80% recycled and recyclable materials, coming from the chain custody FSC Recycled. Packaging is sized in order to optimize storage and transport requirements, both helping the environment and saving on transport costs.

Le scatole di cartone ondulato, stampate con inchiostri ecologici, sono realizzate almeno per l’80% con materiali riciclati e riciclabili provenienti dalla catena di custodia FSC Recycled. Gli imballi sono dimensionati in modo da ottimizzare le esigenze di stoccaggio e trasporto, sia a favore dell’ambiente che di risparmio sui costi di trasporto.

FUNCTION DESIGN AND SUSTAINABILITY
FUNZIONE DESIGN E SOSTENIBILITÀ

ALHAMBRA AND EPICA ECO: SUSTAINABLE PRODUCTS
ALHAMBRA E EPICA ECO: PRODOTTI SOSTENIBILI

Compund Wood by Gaber is an advanced bio-composite where natural wood fibres are incorporated into a polyolefin matrix in order to produce a “Triple-way Ecological” material achieved by using wood shavings, in their turn completely recyclable, and without the need for any protective polluting treatments.

Compund Wood di Gaber è un Bio-Composito avanzato nel quale le fibre di legno naturali sono incorporate in una matrice poliolefinica per produrre un materiale “3 volte Ecologico” perché utilizza derivati dalla lavorazione del legno, a loro volta completamente riciclabili e non necessita di trattamenti inquinanti protettivi del legno.

LILIBET AND TO-ME: ZERO WASTE COLLECTION
LILIBET E TO-ME: COLLEZIONE ZERO WASTE

Gaber technopolymer products are made with high quality raw materials: 100% recyclable and eco-friendly. In the zero waste collection, Gaber products are made of completely recycled material.
In the “ZERO WASTE” collection, Gaber products are made of completely recycled plastic material: 50% from post-consumer certified plastic waste (PCR) and 50% from industrial plastic waste (PIR).
However, sustainability does not stop at the sole use of “ZERO WASTE” material: this material, in fact, at the end of the product’s life cycle, remains totally recyclable and therefore usable to create new products, consequently eliminating material waste.

I prodotti Gaber in tecnopolimero sono realizzati con materie prime di alta qualità: riciclabili al 100% ed eco-compatibili. Nella collezione “ZERO WASTE” il prodotto Gaber è realizzato in materiale plastico completamente riciclato: 50% da scarto di materiale plastico certificato post consumo (PCR) e 50% da scarto di materiale plastico industriale (PIR). La sostenibilità non si ferma però al solo utilizzo di materiale “ZERO WASTE”: tale materiale, infatti, alla fine del ciclo di vita del prodotto rimane totalmente riciclabile e quindi utilizzabile per creare nuovi prodotti, eliminando di conseguenza gli sprechi di materiale.

RECYCLING UNIT
UNITÀ DI RICICLAGGIO

When a production chain works at its best, it also prevents the creation of waste, saves resources and reduces any impact on the environment. To ensure the sustainability of its activities, Gaber invests in latest generation technologies, thanks to which energy consumption is reduced and waste materials reused.
Gaber Recycling Unit is a division of Gaber s.r.l. that allows the recycling of plastic and metal materials from post-industrial consumption, automatically optimizing the separation of different raw materials, which are thus reused in subsequent production runs.

Quando una catena produttiva funziona al meglio, previene anche la creazione di rifiuti, risparmia risorse e riduce l'impatto sull'ambiente. Per garantire la sostenibilità delle proprie attività, Gaber investe in tecnologie di ultima generazione, grazie alle quali viene ridotto il consumo di energia e vengono ri-utilizzate le materie di scarto.
Gaber Recycling Unit è una divisione di Gaber s.r.l. che permette il riciclo delle materie plastiche e metalliche da post consumo industriale, differenziando al meglio ed in modo automatico i diversi materiali componenti dei prodotti, che vengono così riutilizzati per una nuova produzione.

SALES CONDITIONS

• All prices are expressed in Kč
• All mentioned prices are on EX-works basis; goods travel at customer's own risk.
• Minimum order quantity follows the packaging or multiply, unless otherwise specified. The first box per model must be complete; subsequent incomplete boxes incur a 180,- net surcharge.
• Minimum order amount: 15.000,- net. For smaller orders exceptionally accepted, anyway not lower than 6.000,-, upcharge of 750,- net.
• Delivery time is approximate, unless differently agreed. Possible delays cannot justify any order cancellation or claim for damages.
• The goods sold through an extended payment are released under the conditions with property reserve until full settlement.
• Possible complaints must be notified not later than 8 days from receipt of the goods.
• For any dispute the exclusive place of jurisdiction will be the Court of Treviso, Italy.

GABER® LITERATURE
All Gaber literature contains technical information and use-suggestions for those who intend to purchase or already have bought items from the Gaber range. For Customers' interest, the Company may modify its products without any prior notice. Drawings, quote, sizes, materials, colors represented in Gaber Literature are shown as a guide only and subject to tolerances. The colors displayed in Gaber literature or palettes, including physical ones, related to techno-polymer finishing, fabrics, leather, lacquered or painted materials, wooden items, laminated and compactop materials, glass, marble and porcelains, may change from time to time: Gaber declines all responsibility in relation to slight differences in shades. Gaber reserves the right to suspend the production of any of its products without any notice or reason. Gaber is a registered trademark: all inherent rights and all rights of reproduction in whole or in part of Gaber literature, related to text, images or illustration, or transmitted by any means, electronic or mechanical, including photocopying, recording or any information storage without written permission from Gaber, are worldwide reserved.

MAINTENANCE
Correct and frequent maintenance and cleaning increases the lifespan of the products: follow the specific guidelines to each product for cleaning, sanitizing and maintenance advice. Any maintenance interventions must be carried out by expert personnel.

MATERIALS
Plastic Materials
The Technopolymer compounds Gaber uses on its products are characterized by high structural resistance, heat and abrasion resistance. Gaber techno-polymers are non-toxic, stain resistant, antistatic, waterproof and UV-resistant: thanks to all these features these materials have excellent resistance to atmospheric agents. All these materials are recyclable in the full respect of our Natural Environment. Gaber produces plastic injected materials without added chemicals and, as far as possible, recycled techno-polymers are sourced as a base raw material, recovered post-consumption. Even products made especially for outdoor purposes could be affected by atmospheric agents: products may undergo exterior changes due to particular exposure to heat, sunlight, humidity and salinity. Gaber glides and floor-pads are made of blended rubber for heavy-duty use and are designed to minimise noise. Certain Gaber items come ready-fitted with felt floor-pads, specifically for hard or especially delicate floors. Some techno-polymer materials can show small defects such as shadows or streaks due to the structural characteristic of the material itself. Gaber manufactures some products of its collection with fire retardant techno-polymer: the additives that make the fireproof plastic can substantially change the aesthetics and durability of the product.

Steel
High-resistance steel is used to produce frames for chairs, stools and tables by using square or round tubes as well as solid rod. Products are available in chrome or painted finishes. The galvanic treatments and special epoxy powder coating used on many Gaber structures achieves excellent resistance to atmospheric agents.

Aluminum
Gaber use aluminum to produce frames for chairs, stools and tables. Aluminum surfaces can be anodized, and Gaber use this special treatment in order to increase resistance to corrosion.

Wood
Our wooden products are produced in accordance with the European Regulations in force regarding formaldehyde emissions from wood-based products. "Compound-wood" is a material used by Gaber for the production of some specific collections: this material uses wood fibers coming from the same production processes with which Gaber makes wooden components. Wooden products, being natural materials, can be damaged easily. Small impurities or imperfections are within quality standard range. Wooden surfaces cannot withstand direct heat sources.

Flexible Polyurethane Padding
The flexible polyurethane cold-pressed paddings Gaber uses on some of its upholstered products do not contain CFC/HCFC (ODP=0: do not contribute the reduction of the atmospheric ozone layer), they are fire-retardant class 1-IM UNI 9175 / CMHR following European Standards.

Coverings: Fabrics and Leathers
Gaber uses fabrics and leathers that belong to a wide range of colors and patterns, which are all tested in order to achieve the best performance, among which resistance to abrasion and artificial light. Fire-retardant fabrics and eco-leather upholstery are also available.

PACKAGING AND RECYCLING
Packages are designed to optimize storage and transport requirements, they are made of 90% recycled raw material and are completely recyclable in themselves. The optimization of packaging in terms of volume and weight delivers a lower consumption of energy in many forms, helping the environment and a consequent saving on transport costs. In order to avoid the loss of components, packaging must be disposed only after completing the assembly of the products. Once the product has been dismantled, the product itself or its components must be given to public garbage system, according to local rules, following the specific end of life disassembly sheets.

INNAPROPRIATE USES OF THE PRODUCT
Avoid any improper use of the product; do not step on the product, do not stand on footrest or on armrests, do not seat on the back or on armrest, do not use the chair as a ladder. The product should not be subjected to swinging back and forwards that may damage the furniture or result in injury to the user. When lifting or moving the product, hold it by the main structure and not just under the seat. Gaber will accept no liability for any damages caused to property or persons subsequent to incorrect or improper handling of the product. Gaber also declines any responsibility in cases of damage caused to delicate floors.

CONDIZIONI GENERALI DI VENDITA

• I prezzi sono espressi in Kč
• La merce è venduta Ex Works e viaggia a rischio e pericolo del committente.
• Ordine Minimo: pari all'imballo o multipli dello stesso, salvo diversamente specificato. Il primo imballo per ogni modello deve essere completo, ulteriori imballi incompleti subiranno un sovraprezzo di 180,- netti.
• Importo minimo ordine: 15.000,- netti. Per ordini inferiori accettati eccezionalmente, comunque non al di sotto di 6.000,-, addebito di spese fisse per 750,- netti.
• I tempi di consegna sono indicativi salvo nostra conferma esplicita. Eventuali ritardi non possono dar luogo a pretese di danni o annullamenti dell'ordine.
• La merce venduta con pagamento dilazionato è rilasciata con condizioni di riserva di proprietà fino a completo pagamento.
• Eventuali reclami devono essere comunicati entro 8 giorni dal ricevimento della merce.
• Per qualsiasi controversia è esclusivamente competente il foro di Treviso, Italia.

DOCUMENTAZIONE GABER®
La documentazione Gaber contiene informazioni tecniche e consigli d'uso per chi vuole acquistare o possiede articoli della gamma prodotti Gaber. Nell'interesse della clientela Gaber si riserva il diritto di modificare i propri modelli in ogni momento, senza obbligo di preavviso. I disegni, le quote e le dimensioni, i materiali ed i colori rappresentati nella documentazione Gaber si intendono a titolo puramente indicativo, e soggetti a tolleranze. I toni di colore rappresentati o presenti nelle palette Gaber, anche fisiche, relativi a polimeri, rivestimenti di ogni genere, verniciature, laccature, laminati e compactop, vetri, essenze legno, marmi e porcellane, sono indicativi, in quanto passibili di variazioni da partita a partita: Gaber declina ogni responsabilità in relazione a leggere differenze di tonalità. Gaber si riserva inoltre il diritto di ritirare, sospendere o cessare la produzione di ogni suo prodotto o versione in qualsiasi momento e a sua discrezione senza darne preventivo avviso. Gaber è un marchio registrato: tutti i diritti ad esso inerenti o di riproduzione, anche parziale, di cataloghi e listini Gaber relativi a testi, immagini, illustrazioni, disegni, sia con mezzi meccanici che elettronici, incluso fotocopie o la formazione di sorgenti di informazione, senza il preventivo permesso scritto di Gaber, sono globalmente riservati.

MANUTENZIONE
Una corretta e frequente manutenzione e pulizia aumenta la durata di vita dei prodotti: consultare le guide specifiche ad ogni prodotto per i consigli di pulizia, sanificazione e manutenzione. Eventuali interventi di manutenzione devono essere eseguiti da personale esperto.

MATERIALI
Materie Plastiche
I compound di tecnopolimeri utilizzati da Gaber nella realizzazione dei propri prodotti sono caratterizzati da un'elevata resistenza strutturale, termica e all'abrasione. Il tecnopolimero componente dei prodotti Gaber è atossico, antimacchia, antistatico, impermeabile e anti-uv: qualità che lo rendono ottimamente resistente agli agenti atmosferici. I tecnopolimeri utilizzati da Gaber sono integralmente riciclabili, nel pieno rispetto del nostro ambiente naturale. Gaber produce articoli termoplastici senza additivi chimici e, ove possibile, vengono utilizzati tecnopolimeri riciclati derivanti da post-consumo industriale. I prodotti destinati all'uso esterno subiscono comunque nel tempo l'azione degli agenti atmosferici: eventuali alterazioni superficiali possono verificarsi a specifiche condizioni di temperatura, raggi solari, umidità e salinità. I tappi e le protezioni dei prodotti Gaber sono realizzati in una mescola di gomma ad alta resistenza all' usura, atta a diminuire il rumore da trascinamento. Alcuni prodotti Gaber sono dotati di tappi con feltri, adatti a pavimenti rigidi e più delicati. Alcuni materiali in tecnopolimero possono evidenziare piccoli difetti come ombre o striature dovute alla caratteristica strutturale del materiale stesso. Gaber realizza alcuni prodotti della propria collezione con tecnopolimeri ignifughi: gli additivi che rendono il manufatto plastico ignifugo possono variare sostanzialmente l'estetica e la resistenza del prodotto.

Acciaio
L'acciaio ad alta resistenza è utilizzato nelle strutture di tavoli, sedie e sgabelli, realizzati da Gaber per mezzo di tubolari a sezione quadrata e rotonda, o con tondino. I prodotti sono disponibili con finitura cromata o verniciata. I trattamenti galvanici e la speciale verniciatura a polveri epossidiche utilizzata da Gaber per alcune strutture dei propri prodotti raggiunge una resistenza ottimale agli agenti atmosferici.

Alluminio
Gaber utilizza l'alluminio per realizzare le strutture di tavoli, sedie e sgabelli. La finitura per mezzo del trattamento superficiale di anodizzazione, utilizzata in alcuni prodotti, ha lo scopo di aumentarne la resistenza alla corrosione.

Legno
I prodotti Gaber con elementi in legno sono prodotti di accordo con le vigenti normative Europee rispetto alle emissioni di formaldeide. "Compound-wood" è il particolare materiale utilizzato da Gaber per la realizzazione di alcune collezioni: questo materiale utilizza fibre di legno derivanti dagli stessi processi di produzione con cui Gaber realizza elementi in materiale legnoso. Le superfici in legno, essendo un materiale naturale, potrebbero, nel tempo, subire alterazioni di colore con l'utilizzo e con l'esposizione alla luce. Inoltre, per loro natura, tali superfici sono facilmente danneggiabili; alcune piccole impurità ed imperfezioni rientrano negli standard di qualità accettati. Le superfici in legno non possono sopportare fonti di calore dirette.

Imbottiture in Poliuretano Flessibile
Le imbottiture di alcuni prodotti Gaber sono realizzate in poliuretano flessibile, stampato a freddo, privo di CFC/HCFC (ODP=0 : non contribuisce alla riduzione dello strato di ozono atmosferico), autoestinguente classe 1-IM Uni 9175 / CMHR, seguendo le normative Europee in materia.

Rivestimenti: tessuti e pelli
Tessuti e Pelli utilizzati da Gaber appartengono ad un'ampia gamma di colori e trame, tutti scelti tra un range di prodotti testati con l'obiettivo di ottenere le migliori caratteristiche prestazionali, quali la resistenza all'abrasione, allo sfregamento e alla resistenza alla luce artificiale. Sono disponibili categorie di tessuti ignifughi e rivestimenti in finte pelli.

IMBALLI E RICICLO
Gli imballi sono realizzati con l'obbiettivo di ottimizzare trasporti e stoccaggio; sono realizzati per il 90% di materiali riciclati e totalmente riciclabili. L'ottimizzazione dell'imballo in termini di volume e peso comporta un minore dispendio di energia, con un conseguente risparmio nei costi di trasporto e un importante aiuto alla salvaguardia del nostro ambiente. E' consigliabile lo smaltimento degli imballi solo a completamento dell'assemblaggio, onde evitare lo smarrimento di eventuale ferramenta e componenti. Una volta dismesso, il prodotto o i suoi componenti, vanno conferiti ai sistemi pubblici di smaltimento secondo quanto previsto dalla legislazione locale in vigore, seguendo le specifiche schede di smontaggio a fine vita.

USO IMPROPRIO DEI PRODOTTI
Sono da considerarsi usi impropri e/o scorretti del prodotto il salire in piedi su tavoli, sedie, sgabelli, poggiapiedi, sedersi su schienali, braccioli, utilizzare i prodotti come scaletta. Evitare oscillazioni che potrebbero pregiudicare il funzionamento e la sicurezza dell'utente. Per sollevare o spostare un prodotto non afferrare sotto il sedile, bensì afferrare saldamente la struttura portante. Il prodotto non deve essere sottoposto a carichi decentrati, è stato progettato per essere utilizzato in condizioni normali di appoggio (su quattro gambe o sulla base). Gaber declina ogni responsabilità per danni causati a cose o a persone derivanti da uso non corretto del prodotto; l'azienda inoltre si solleva da ogni responsabilità per danni provocati su pavimenti e superfici delicate.

CONDICIONES GENERALES DE VENTA

• Todos los precios son en Kč
• Portes: debidos (ex-works), toda la mercancía viaja por cuenta y riesgo del comprador.
• Cantidad minima por cada pedido: igual al embalaje o múltiplo de lo mismo, a menos que se especifique lo contrario. El primer empaque para cada modelo debe estar completo, los paquetes incompletos tendrán un coste adicional de 180,- netos.
• Valor minimo de pedido: 15.000,- netos. Para pedidos inferiores, excepcionalmentes aceptados, y del valor mínimo de 6.000,- netos hay un coste fijo extra de 750,- netos.
• Los plazos de entrega son indicativos, exepto si lo mismos han sido establecidos por parte de nuestra empresa. En caso de retraso en la entrega no se aceptan cancelaciones de pedidos o peticiones de reembolso.
• La mercancia vendida con pago diferido, se entrega con derecho de reserva de propiedad hasta el pago total de la misma.
• No se admiten reclamaciones efectuadas con posterioridad a los 8 dias de la entrega de la mercancía.
• Para cualquier queja, el foro de competencia es exclusivamente el de Treviso, Italia.

DOCUMENTACION GABER®
Toda la documentación Gaber contiene una serie de informaciones técnicas y consejos para el utilize para quién quiera comprar o para quién posea productos perteneniences a la gama Gaber. En el interés de los clientes, Gaber se reserva el derecho de poder modificar o mejorar sus productos sin avisar antes. Los dibujos, las cuotas y las medidas, los materiales y los colores se ilustran exclusivamente a modo de ejemplo y son indicativos, sujetos a tolerancias. Las tonalidad de los colores de los muestrario, también físico, relativos a los polimero, las telas, pieles, pinturas, esencias de las maderas, laminados y compactop, mármol y porcelana, pueden variar según partida: Gaber declina todo tipo de responsabilidades con relación a pequeñas diferencias de color. Gaber se reserva además el derecho de ritirar, suspender o cesar la producción de cualquier producto en cualquier momento y a propia discreción sin dar previo aviso. Gaber es una marca registrada y todos los derechos que hacen referencia a ella y los derechos de reproducción, incluso parcial, de los catálogos y listas de precios Gaber relativos a los textos, imagines, ilustraciones, diseños ya sea por medios mecánicos o electrónicos, incluyendo el fotocopiado o la formación de fuentes de información, sin el permiso previo por escrito de Gaber, son reservados a nivel mundial.

MANTENIMIENTO
Una correcta y frecuente limpieza y mantenimiento aumenta la vida útil de los productos: consulte las guías específicas de cada producto para obtener consejos de limpieza, higienización y mantenimiento. Cualquier intervención de mantenimiento debe ser realizada por personal experto.

MATERIALES
Material Plástico
Tecno polímeros compuestos que Gaber utiliza en sus productos se caracterizan por una alta resistencia estructural, al calor y una alta resistencia a la abrasión. Los tecno polímero de Gaber no son tóxicos, son resistentes a manchas, antiestáticos, impermeable y UV-resistente: gracias a esto los materiales tienen una excelente resistencia a los agentes atmosféricos. Todos estos materiales son reciclables en el pleno respeto de nuestro medio ambiente. Gaber produce plástico inyectado sin productos químicos y materiales añadidos y, cuando sea posible, tecnopolímero reciclados se obtienen como materia prima básica, recuperado de post-consumo industrial. Incluso los productos hechos especialmente para el exterior podrían ser afectados por los agentes atmosféricos. Productos podrían someterse a posibles cambios dependentemente en la exposición especial al calor, rayos de sol, la humedad y la salinidad. Los tapónes de los productos Gaber están hechos de un compuesto de goma de alta resistencia al desgaste, que reduce el ruido de arrastre. Algunos productos Gaber están equipados con tapónes con fieltro, adecuados para suelos duros y más delicados. Algunos materiales de tecnopolímeros pueden presentar pequeños defectos como sombras o rayas debido a las características estructurales del propio material. Gaber fabrica algunos productos de su collección con tecno polimero retardante de fuego: los aditivos que hacen que el producto de plástico sean a prueba de fuego pueden variar sustancialmente la estética y la durabilidad del producto.

Acero
Acero de alta resistencia se utiliza para producir las estructuras de las sillas y de las mesas, utilizando tubos cuadrados o redondos, así como barilla sólida. Los productos están disponibles en cromo o acabados pintados. Los tratamientos galvánicos y a pintura en polvo epoxi especial, utilizada en muchas estructuras Gaber, logra una excelente resistencia a los agentes atmosféricos.

Aluminio
Gaber utiliza aluminio, ligero y resistente, para producir estructuras para las sillas y las mesas. Superficies de aluminio pueden ser anodizado, y Gaber utilizan este tratamiento especial con el fin de aumentar la resistencia a la corrosión.

Las Maderas
Nuestras colleciónes de madera se producen de acuerdo con la normativa europea vigente en materia de emisiones de formaldehído de los productos a base de madera. "Compound Wood" es el material particular utilizado por Gaber para la realización de algunas colecciones: este material utiliza fibras de madera derivadas de los mismos procesos de producción con los que Gaber crea elementos en madera.
Los productos de madera, siendo materiales naturales, podrían dañarse fácilmente. Las pequeñas impurezas o imperfecciones están dentro del rango estándar de calidad.

Espumas
Gaber utiliza en algunos de sus artículos tapizados una espuma de poliuretano inyectada dentro de un molde, toda las espumas no contienen CFC/HCFC (ODP = 0: no contribuyen a la reducción de la capa de ozono de la atmósfera), y son de clase ignífugo 1-IM Uni 9175 siguiendos Normas europeas.

Revestimientos: Telas y Piel
Gaber utiliza telas y pieles que pertenecen a una amplia gama de colores y diseños, que son todos probados a fin de lograr las mejores prestaciones, entre las que la resistencia a la abrasión y la luz artificial. Telas ignífugas y para exteriores, tapicería en eco-piel, también están disponibles.

EMPAQUE Y RECICLABILIDAD
La gama de productos Gaber está costituida por la mayor parte de elementos completamente reciclables. Nuestros embalajes se escalan con el fin de optimizar los requisitos de almacenamiento y de transporte; están hechos de 90% materia prima reciclada y son totalmente reciclables. La optimización de los mbalajes en términos de volumen y peso ofrece un menor consumo de energía en muchas formas, ayudando al medio ambiente y el consiguiente ahorro en los costes de transporte. A fin de evitar la pérdida de componentes, el embalaje debe eliminarse sólo después de completar el montaje de los productos. Una vez que el producto ha sido desmontado, el propio producto o sus componentes se debe dar a sistema público de reciclaje, de acuerdo con las normas locales, siguiendo las fichas específicas de desmontaje al final de su vida.

USOS INADECUADO DEL PRODUCTO
Evite cualquier uso inadecuado del producto; no subir/caminar sobre el producto, no se pare en el reposapiés o en los brazos, no sentarse en el espaldar o en el reposabrazos, no utilice la silla como una escalera. El producto no debe ser sometido a pesos desequilibrados, ya que está diseñado para un descanso adecuado en el punto de apoyo (en cuatro patas o en la base). Cuando levante o mueva el producto, manténgalo en la estructura principal y no sólo bajo el asiento. Gaber aceptará ninguna responsabilidad por los daños y perjuicios causados a bienes o personas posteriores a un manejo incorrecto o inadecuado del producto. Gaber se libera de cualquier responsabilidad en caso de daños causados a los suelos delicado o frágiles.

CONDITIONS GENERALES DE VENTE

• Les prix sont en Kč
• Marchandise vendue départ usine - la marchandise voyage sous la responsabilité du client.
• Minimum de commande en ce qui concerne le colisage: au moins un carton complet – pour tout décolisage, exceptionnellement pris en compte, nous ajouterons 180,- net de frais fixe - les colisages sont indivisibles à la couleur selon indications sur la documentation.
• Montant minimum: 15.000,- net achat H.T- pour toute commande exceptionnellement prise en compte d'un montant inférieur et de tout façon pas en-dessous de 6.000,-, nous ajouterons 750,- de frais fixe.
• Les délais de livraison sont indicatifs, sauf en cas de confirmation explicite de notre part. Tout retard ne pourra donner lieu en aucun cas, à une demande de dédomagement ou à l'annulation de la commande en cours.
• Gaber se réserve la propriété des marchandises en cas de paiement échelonné, et ce, jusqu'à la dernière échéance honorée.
• Tous dommages ou manquants doivent être signalés par mail ou fax dans les 8 jours qui suivent la livraison.
• Pour toute contestation, le tribunale de compétence sera exclusivement Treviso, Italie.

DOCUMENTATION GABER®
Notre documentation contient des informations techniques et des conseils pour l'utilisation des produits, s'adressant aux clients Gaber ou futurs clients. Dans l'intérêt de la clientèle, Gaber se réserve le droit de modifier ses modèles, à n'importe quel moment, sans aucun préavis. Les dessins, les cotes, les dimensions, les matériaux et les couleurs au sein de la documentation Gaber sont pûrement indicatifs et soumis à des tolérances. Les tonalités des couleurs de notre palette (papier et physique), relatives aux polipro, aux tissus, aux laques, vernis, mélamines, compact, essences de bois, marbres et porcelaine sont purement indicatives car elles peuvent varier d'un lôt à un autre: Gaber décline toute responsabilité en ce qui concerne les différences de tonalité. Gaber se réserve le droit de retirer du catalogue, d'interrompre ou de cesser la production de tout article, sans aucun préavis et à tout moment. Gaber est une marque enregistrée: tout droit inhérent et de reproduction, même partiel, de catalogues et tarifs, relatif aux textes, images, illustrations, dessins, par des moyens mécaniques, électroniques, par photocopie, ou autre source d'information, sans le consentement préalable de Gaber, est globalement réservé.

ENTRETIEN
Un entretien et un nettoyage, courant et fréquent, augmente la durée de vie du produit: consulter les fiches spécifiques à chaque produit en ce qui concerne les conseils pour l'entretien, le nétoyage, la désinfection. Toute intervention spécifique doit etre effectuée par du personel spécialisé.

MATERIAUX
Les matériaux plastique
Les billes de technopolymer utilisées par Gaber pour fabriquer ses produits ont les caractéristiques suivantes: résistance structurel thermique, résistance à l'abrasion, le technopolymer est non toxique, il est anti statique, imperméable et anti UV; ces qualités le rendent très résistant aux agents atmosphériques. Le technopolymer est entièrement recyclable, dans le respect de la charte écologique. Les articles thermoplastique de production Gaber ne contiennent aucun additif chimique et dans la mesure du possible, Gaber utilise des polymères recyclés ou provenant de déchets post-consommation industriel. Les articles utilisés à l'extérieur peuvent etre soumis à la longue à l'action d'agents atmosphériques, tels que la salinité, l'humidité, les rayons de soleil, qui peuvent en altérer la superficie et la couleur. Les patins des produits Gaber sont faits d'un mélange de caoutchouc à haute résistance d'usure et qui réduit le bruit sur le sol. Certains produits Gaber sont équipés de patins avec feutre, adaptés aux sols plus durs ou délicats. Sur certains produits en polymer, on peut remarquer des petits défauts tels que traces ou tâches plus sombres qui sont dûs simplement aux composants des matériaux. Certains articles de la collection Gaber sont réalisé en polymer non feu ou ignifugé; les additifs qui rendent le produit plastique ignifugé peuvent, cependant en varier l'esthétique et la résistance.

L'Acier
L'acier utilisé pour la fabrication des structures de tables, chaises, et tabourets Gaber est très résistant. Il est travaillé sous forme de tube à section carrée ou ronde. La finition peut être chrome ou vernis. Le traitement galvanique et le vernissage spécial à époxy, utilisé par Gaber, résiste de façon optimale aux agents atmosphériques.

L'Aluminium
Gaber utilise l'aluminium pour la réalisation de structures de tables, chaises et tabourets. La finition anodisée utilisée sur certains produits augmente la résistance à la corrosion.

Le Bois
Les articles Gaber avec bois, sont fabriqués selon les normes européennes en vigueur, sans formaldehyde (par rapport à l'émission de formaldehyde). Le "compound-wood", matériau utilisé pour la fabrication de certains articles de notre gamme est un mélange de sciure de bois rendu compact et dérivant de matériau recyclé. Le bois étant une matière vivante, il peut, avec le temps et suivant l'exposition à la lumière, subir de légères modifications au niveau de la couleur. Les superficies, de par leur nature, peuvent s'abimer facilement; nous tenons aussi à préciser que certaines imperfections correspondent à un standard normal de qualité. Il est recommandé enfin, de ne pas approcher la superficie à une source de chaleur directe.

Rembourrage en polyuréthane «flexible»
Le rembourrage de certains articles Gaber est réalisé en polyurethane «flexible», injecté à froid, sans particules de CFC/HCFC (ODP=0, ne réduit pas la couche d'ozone), ignifugé en classe 1-IM UNI 9175/CMHR, selon les normes européennes en vigueur.

Revêtement: tissus et cuir
Gaber a au choix une large gamme de couleurs et finitions, choisis parmi des tissus, des cuirs, des similicuir testés et garantissant une bonne résistance aux frottements, aux abrasions, à la lumière artificielle. Nous avons aussi une gamme de revêtements non feu.

EMBALLAGE ET RECYCLAGE
Nos emballages sont conçus de façon à optimiser le transport et le stockage; ils sont réalisés à 90% avec du matériel recyclé et sont complètement recyclables. L'emballage, optimisé au maximum en ce qui concerne son volume et son poids, permet une économie d'énergie, de main d'oeuvre et de coût du port, sans oublier la sauve garde de notre environnement. Il est vivement conseillé de monter complètement l'article Gaber avant de procéder à l'élimination du carton, ceci, afin d'éviter de perdre la visserie et/ou les divers composants de l'article en question. Lorsqu'un produit Gaber arrive en fin de vie, aprés l'avoir demonté selon la notice de démontage, il est vivement recommandé de porter le tout à la déchèterie la plus proche, selon la loi du pays en vigueur.

USAGE INCORRECT DES PRODUITS
On utilise les tables, chaises, tabourets ou repose pieds de façon correct, il ne faut pas s'asseoir sur les dossiers ou les accoudoirs ou se servir de ces articles comme escabeau. Il faut éviter de se balancer d'avant en arrière sur les assises, de façon à éviter les accidents. Pour soulever ou déplacer une chaise ou tabouret, on recommande de le prendre par le cadre et non par l'assise. Le produit ne doit pas être soumis à des charges excessives ou décentrées, il a été conçu pour un usage normal de simple appui au sol (sur 4 pieds ou sur pied central). Gaber décline toute responsabilité pour les dommages causés à personne ou choses, qui pourraient dériver d'un usage incorrect du produit. L'usine décline aussi toute responsabilité pour les dégâts sur parquets ou sol délicats.

ALLGEMEINE VERKAUFSBEDINGUNGEN

• Die Preise werden in Kč
• Die Ware ist verkauft als Ex-Works und sie reist auf Gefahr des Auftraggebers
• Sofern nicht anders angegeben, entspricht die Mindestbestellmenge der Verpackung bzw. mehrfachen dergleichen. Die erste Verpackung muss vollständig sein. Für andere unvollständige Verpackungen wird ein Aufpreis von e 180,- angerechnet.
• Der Mindestnettobetrag der Bestellung beträgt e 15.000,-. Bestellungen mit niedrigeren Beträgen werden ausnahmsweise angenommen. Jedenfalls dürfen diese den Nettobetrag von e 6.000,- nicht unterschreiten und es werden zusätzlich Fixkosten in Höhe von e 750,- angerechnet.
• Die Lieferzeiten gelten als reine Orientierung. Bei Verspätungen können keine Schadensersatzansprüche geltend gemacht oder die Bestellung storniert werden.
• Ein Zahlungsaufschub wird unter Eigentumsvorbehalt der Ware bis zur vollständigen Bezahlung gewährt.
• Eventuelle Beschwerden müssen innerhalb von 8 Tagen ab Erhalt der Ware mitgeteilt werden.
• Für eventuelle Streitigkeiten oder Auseinandersetzungen ist ausschließlich der Gerichtsstand von Treviso (Italien) zuständig.

GABER® DOKUMENTATION
Die Dokumentation von Gaber beinhaltet technische Informationen und Ratschläge zur Nutzung von Gaber Produkten für Kaufinteressenten bzw. für Besitzer von Artikeln, die zur Produktpalette von Gaber gehören. Im Interesse der Kunden behält sich Gaber das Recht vor, die eigenen Modelle jederzeit abzuändern, ohne Pflicht zur Vorankündigung. Die Zeichnungen, die Quoten und die Masse, die Materialien und die Farben der Dokumentation dienen lediglich als Information und unterliegen Toleranzen. Die dargestellten Farbtöne, auch die in den Farbpaletten, sowie die Lackierungen, Stoff-, Leder-, Lack-, Glas-, Laminate-, Compactop-, Marmor-, Porzellan- und Holzverkleidungen sind Indikativ, da von Fall zu Fall Änderungen möglich sind. Gaber lehnt jegliche Verantwortung in Verbindung mit Farbtonabweichungen ab. Gaber behält sich zudem das Recht vor, die Produktion jedes einzelnes Produkts zurückzuziehen, einzustellen bzw. abzutreten. Gaber ist eine eingetragene Marke. Alle damit verbundenen Rechte an der Reproduktion von Kataloge und Preislisten von Gaber , in Bezug auf Texte, Bilder, Illustrationen, Zeichnungen, die sowohl mit mechanischen als auch mit elektronischen Mitteln, Kopien inbegriffen, erfolgen sind weltweit Gaber vorbehalten und benötigen eine schriftliche Genehmigung von Gaber.

WARTUNG
Die richtige und häufige Pflege und Reinigung erhöht die Lebensdauer der Produkte: Beachten Sie die spezifischen Linien für jedes Produkt für Reinigungs-, Desinfektions- und Wartungstipps. Alle Wartungsarbeiten müssen von erfahrenem Personal durchgeführt werden.

MATERIALIEN
Kunststoffmaterialien
Die von Gaber benutzte “Tecnopolymer-Verbindung“ für die Herstellung der eigenen Produkte sind durch hohe strukturelle, thermische und abriebfeste Resistenz gekennzeichnet. Das Tecnopolymer, welcher Bestandteile der Produkte von Gaber sind ungiftig, schmutzabweisend, antistatisch, wasserdicht und anti-UV. Die Eigenschaften der Produkte von Gaber verleihen eine optimale Resistenz gegen atmosphärische Einflüsse.. Das verwendete Tecnopolymer ist, in Beachtung der Umwelt, vollständig recycelbar. Gaber produziert thermoplastische Artikel ohne chemische Zusätze und, wo möglich, wird recyceltes Tecnopolymer aus wiederverwendeten Altstoffen benutzt. Produkte, die für den Außenbereich bestimmt sind, erleiden mit der Zeit die wetterbedingten Einwirkungen. Eventuelle oberflächliche Änderungen können aufgrund bestimmter Temperatur-, Feuchtigkeits- oder Salzgehaltsbedingungen auftreten. Die Kappen und Schutzvorrichtungen der Gaber-Produkte sind in einer Gummimischung mit hoher Verschleißfestigkeit gemacht, zur Reduzierung von Schleppgeräuschen. Einige Gaber-Produkte sind mit Filzstöpseln ausgestattet, die für starre und empfindlichere Böden geeignet sind. Einige Materialien aus technopolymer können kleine Fehler wie Schatten oder Streifen aufgrund der strukturellen Eigenschaften des Materials aufweisen. Gaber realisiert einige Produkte der eigenen Kollektion mit feuerfesten Tecnopolymer. Die Zusatzstoffe, die das Kunststoffmaterial feuerfest machen, können die Ästhetik und die Resistenz der Produkte grundlegend verändern.

Stahl
Bei den Strukturen von Tischen, Stühlen und Hockern wird hochfester Stahl verwendet. Diese werden von Gaber mittels runder bzw. quadratförmiger Röhren realisiert. Die Produkte sind in verchromter oder lackierter Ausführung erhältlich. Die galvanischen Behandlungen und die spezielle Lackierung aus Epoxidpulver, die von Gaber an vielen Strukturen verwendet werden, erreichen eine optimale Resistenz gegen atmosphärische Einflüsse.

Aluminium
Gaber benutzt Aluminium für die Herstellung der Strukturen von Tischen, Stühlen und Hockern. Mittels einer speziellen Verarbeitung der Oberflächen einiger Produkte von Gaber, des Anodisieren, wird die Korrosionsresistenz erhöht.

Holz
Die Produkte von Gaber mit Holzelementen werden in Übereinstimmung mit den geltenden europäischen Vorschriften bezüglich der Emission von Formaldehyd hergestellt.“Compound-Wood“ ist das besondere Material, das von Gaber für die Herstellung einiger Kollektion verwendet wird. Dieses Material benutzt die Holzfasern aus dem Produktionsprozess, mit welchem Gaber die Holzelemente herstellt. Die Holzoberfläche kann mit der Zeit durch die Benutzung oder die Sonneneinstrahlung eine Farbänderung erleiden, da es sich um ein natürliches Material handelt. Zudem sind die Oberflächen, aufgrund Ihrer Natur, leicht zu beschädigen. Einige kleine Unreinheiten und Macken liegen im annehmbaren Qualitätsstandard. Die Holzoberflächen vertragen keine direkte Wärmezufuhr.

Polsterung in flexibles Polyurethan
Die Polsterung einiger Produkte von Gaber besteht aus flexiblem Polyurethan, kaltgepresst, ohne CFC/HCFC (ODP=0: es trägt nicht zur Reduzierung der atmosphärischen Ozonschicht bei), selbstlöschend der Klasse 1-IM UNI 9175/CMHR, gemäß der geltenden europäischen Vorschriften.

Bezüge: Stoffe und Leder
Gaber verwendet Stoffe und Leder, die zu einer umfassenden Palette an Farben und Mustern gehören, die alle aus einer Reihe getesteter Produkte ausgewählt wurden, mit dem Ziel die beste Leistung wie die Abriebfestigkeit und Resistenz gegen künstliches Lichtes zu erzielen. Es sind Kategorien feuerfester Stoffe und künstliche Lederbezüge erhältlich.

VERPACKUNG UND RECYCLING
Unsere Verpackungen wurden mit dem Ziel realisiert den Lager und Transport zu optimieren. Sie bestehen zu 90% aus recycelten Materialien und sind vollständig recycelbar. Die Optimierung der Verpackung in Bezug auf Volumen und Gewicht führt zu einem geringeren Energieverbrauch, mit einer folgenden Einsparung bei den Transportkosten und einer wichtige Hilfe zum Schutz der Umwelt. Um den Verlust von Bauteilen zu vermeiden, wird es empfohlen die Verpackung erst nach Abschluss der Montage der Produkte zu entsorgen. Nach der Montage kann das Produkt oder seine Bestandteile dem öffentlichen Entsorgungssystem gemäß den geltenden örtlichen Vorschriften übergeben werden, wobei die spezifischen Demontagekarten am Ende der Lebensdauer zu beachten sind.

UNSACHGEMÄSSE VERWENDUNG DER PRODUKTE
Als eine unpassende bzw. unkorrekte Verwendung der Produkte wird folgendes angesehen: Stellen auf Tische, Stühle und Hocker, Setzen auf Rücken- und Armlehnen, Nutzen der Produkte als Treppchen. Das Schwenken der Produktes könnte die Produkt oder deren Funktion beschädigen und die Sicherheit des Nutzers gefährden. Um das Produkt anzuheben oder zu verschieben wird empfohlen, es an der Hauptstruktur und nicht unter dem Sitz zu halten. Das Produkt sollte keiner dezentralen Last ausgesetzt sein, da es für die Nutzung in normalen Konditionen geplant wurde. Gaber übernimmt keine Haftung für Schäden an Sachen oder Personen, die durch unsachgemäße Verwendung der Produkte verursacht wurden. Gaber lehnt zudem jede Haftung für Schäden an empfindlichen Böden oder Oberflächen ab.

PCon stands for “product configuration” and offers online and offline solutions to plan your space, configure products, create quotes and visual materials.
Gaber has invested in the creation of intelligent configurable data and the use of the pCon platform.
These solutions are free and reserved for the pCon Community.
Registration to the community is open to professionals (architects, interior designers, facility managers, agents, specialised retailers, salespeople, manufacturers, etc.).

Panky Seating System

Panky is the modular and customisable seating system for furnishing waiting and reception areas, based on the 2027 trestle frame that allows it to be combined with operational office furnishings. The creation of a Panky configuration entails 3 simple steps, shown hereafter: choose the frame, available in 3 lengths; compose the sofa with cushions, cushions with back and/or armrest, tops; and finally join up the composition with 45° or 90° connections, whether composed of service tops or cushions.

Panky è il sistema di sedute modulare e personalizzabile per arredare gli spazi dedicati all'attesa e all'accoglienza, basato sulla struttura a cavalletto 2027 che consente l'abbinamento con gli arredi operativi dell'ufficio. La creazione di una configurazione si svolge in 3 semplici step, riportati di seguito: scegliere la struttura, disponibile in 3 lunghezze; comporre il divano con cuscini, cuscini con schienale e/o bracciolo, piani; ed infine collegare la composizione con connessioni a 45° o 90°, siano esse realizzate con piani di servizio o cuscini.

TABLES
COLLECTION

Agile

Studio Eurolinea Design

The multifunctional Agile Table Collection reveals essential aesthetics.
Available with rectangular solid laminate tops, the Agile Collection utilizes techno-polymer legs in different colors, supported by a steel frame.
Agile è una collezione di tavoli multifunzionale dall'estetica ricercata ed essenziale.
Realizzato con piani rettangolari in laminato, Agile utilizza gambe in tecnopolimero in diverse colorazioni, supportate da una cornice in acciaio.

Aprio

Forsix Design

Aprio is an extendable rectangular garden table, with an epoxy powder coated aluminum frame and compact laminate top. Thanks to the construction materials and the telescopic extending frame, integrated with the legs, the table lends itself perfectly to both indoor and outdoor use. The patented extension system allows the structure to slide, keeping the legs always at the ends of the table. A quick coupling system allows easy extension by inserting one or two of the leaves that are hidden within the frame itself.

Aprio è un tavolo da giardino rettangolare allungabile, con struttura in alluminio verniciato a polveri epossidiche e piano in Compactop. Grazie ai materiali di costruzione e alla struttura telescopica di allungo, solidale con la gamba, il tavolo si presta perfettamente all'utilizzo sia indoor che outdoor. Il sistema brevettato di allungo consente lo scorrimento della struttura, mantenendo le gambe sempre alle estremità del tavolo. E' possibile scegliere di allungare il tavolo aggiungendo con facilità una o due prolunghe, completamente nascoste all'interno della struttura, grazie ad un sistema di aggancio rapido.

Arket

Studio Eurolinea Design

The Arket table collection is made using
basic geometrics - radii and linear sections intersect
to achieve distinctly intuitive shapes.
The aluminum bases have three or four spokes
with adjustable feet, and the stems come in sections
with three or four surfaces.
The table tops are made of steel, with fire resistant composite
material core. The tables are thus painted in a solid color and easily
customizable and adaptable to the most prestigious of installations.
La collezione di tavoli Arket è realizzata utilizzando
le geometrie più elementari, raggi e sezioni lineari
si intersecano per ricavare forme essenziali ed intuitive.
I basamenti, a tre o quattro razze, con piedini regolabili, e gli steli,
a sezioni con tre o quattro superfici, sono realizzati in alluminio.
I piani sono realizzati in acciaio, dal cuore in materiale composito e
resistente al fuoco. I tavoli sono così verniciati in tinta unita e facilmente
personalizzabili ed adattabili alle più prestigiose istallazioni.

Arket Porcelain

Forsix Design

The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.
I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superfice.

Arket Plus

Forsix Design

Arket Plus Collection is made using basic geometrics, achieving distinctly intuitive shapes. The table tops are made of steel, with fire resistant composite material core, the three spokes bases are made of co-injected metal and techno-polymer. Stem and cross are made in aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving.

La Collezione di tavoli Arket Plus è realizzata utilizzando le geometrie più elementari, ottenendo così forme essenziali ed intuitive. I piani sono realizzati in acciaio, dal cuore in materiale composito resistente al fuoco, la base a tre razze è costituita da una struttura in metallo co-iniettata con tecnopolimero. Colonna e crociera sono realizzate in alluminio, dotate di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano rendono il tavolo facilmente accatastabile in spazi ridotti.

Bristol Marble

Forsix Design

The Bristol table is characterized by bold lines, its four-spur base, equipped with adjustable feet, are in epoxy powder coated steel. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.
Il tavolo Bristol è caratterizzato da linee decise, il basamento a quattro razze, dotato di piedini regolabili, è realizzati in acciaio verniciato a polveri epossidiche. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurne la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Bristol Porcelain

Forsix Design

The Bristol table is characterized by bold lines, its four-spur base, equipped with adjustable feet, are in epoxy powder coated steel treated for outdoor use.
The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.
Il tavolo Bristol è caratterizzato da linee decise, il basamento a quattro razze, dotato di piedini regolabili, è realizzati in acciaio verniciato a polveri epossidiche con trattamento per esterno. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Charme

Studio Eurolinea Design

Elegance and essential shapes find a new expression in the Charme table, a proposal designed for workspace and hospitality environments, which is characterized by the particular design of the metal legs. The regular shapes harmonize each other, creating a product also suitable for conviviality, thanks to the top in Iron composite material which highlights great stability and resistance.

Eleganza ed essenzialità trovano una nuova espressione nel tavolo Charme, una proposta ideata per lo spazio di lavoro e dell'ospitalità, che si caratterizza per il particolare design delle gambe in metallo. Le forme regolari si armonizzano tra loro, dando vita a un progetto improntato anche alla convivialità, grazie al piano in materiale composito Iron dalla grande stabilità e resistenza.

Hug Marble

Studio Eurolinea Design

The Hug tables collection, made with a 4-star aluminum base, equipped with adjustable feet, is enriched with new Marble tops, thus adapting to the most prestigious installations. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.

La collezione di tavoli Hug, realizzata con basamento 4 raze in alluminio, dotata di piedini regolabili, si arricchisce di nuovi piani quadrati in Marmo, adattandosi così alle istallazioni più prestigiose. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurne la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Hug Porcelain

Studio Eurolinea Design

The Hug tables collection, made with a 4-star aluminum base, equipped with adjustable feet, is enriched with new Porcelain tops, thus adapting to the most prestigious installations.The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.
La collezione di tavoli Hug, realizzata con basamento 4 razze in alluminio, dotata di piedini regolabili, si arricchisce di nuovi piani quadrati in Gres Porcellanato, adattandosi così alle istallazioni più prestigiose. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superfice.

Lol

Forsix Design

The Lol table collection is intended for outdoor use; youthfully simple and sunny, its design blends in discreetly with either the most sparkling or the most sober environments. The table tops with fire resistant composite material core, as well as the bases, are available with three or four spokes, are made up of a metal structure treated for outdoor use, and with a matt finish. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.
La collezione di tavoli Lol, disegnata da Forsix, è ideale per l'utilizzo all'aria aperta: giovane, semplice e solare, il suo design si fonde con discrezione dagli ambienti più sobri a quelli più frizzanti. I piani del tavolo, dal cuore in materiale composito resistente al fuoco, come anche i basamenti, disponibili a tre o quattro razze, sono costituiti da una struttura in metallo trattata per esterni, dalla finitura opaca. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

Lol Plus

Forsix Design

The Lol Plus tables collection is made of steel, as well as the table tops with fire resistant composite material core, the cross is made in aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.

La Collezione di tavoli Lol Plus è realizzata in acciaio, come anche il piano dal cuore in materiale composito resistente al fuoco, la crociera è realizzata in alluminio, ed è dotata di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano in posizione verticale, rendono il tavolo facilmente accatastabile in spazi ridotti. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

Lol Marble

Forsix Design

The Lol tables collection is enriched with new Marble tops, with round or square shapes, thus adapting to the most prestigious installations. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended. La collezione di tavoli Lol si arrichisce di nuovi piani in Marmo, dalle forme rotonde o quadrate, adattandosi così alle più prestigiose istallazioni. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurne la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Lol Porcelain

Forsix Design

The Lol tables collection is enriched with new Porcelain tops, with round or square shapes, thus adapting to the most prestigious installations. The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

La collezione di tavoli Lol si arrichisce di nuovi piani in Gres Porcellanato, dalle forme rotonde o quadrate, adattandosi così alle più prestigiose istallazioni. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superfice.

Mantix

Forsix Design

Mantix is a collection of tables and coffee tables coming in different sizes with distinctive rounded contours, which give it a touch of authenticity and essentiality. The frame and legs are made of steel and aluminium and they combine with slimline Compactop tops to guarantee stability and resistance to the elements.
Mantix è una collezione di tavoli e tavolini in diverse dimensioni dai distintivi contorni arrotondati, che ne conferiscono un tocco di autenticità ed essenzialità. La struttura e le gambe, realizzate in acciaio ed alluminio, unite a piani dall'estetica leggera in Compactop, garantiscono solidità e inalterabilità agli agenti atmosferici.

Ohimà

Forsix Design

Ohimà is a rectangular table with a classic and essential design. It features an aluminum and technopolymer frame with legs at each end, suitable for supporting even outsize tops whilst assuring excellent stability. Suitable for use in covered outdoor settings, Ohimà has a top in marine plywood with a rounded edge, elegantly lending itself to completing and setting off to a tee even the most important of installations.

Ohimà, tavolo rettangolare dal design classico ed essenziale, è caratterizzato dalla struttura in alluminio e tecnopolimero a gambe contrapposte, adatta a supportare con eccellente stabilità piani di notevoli dimensioni. Adatto all'uso in ambienti protetti esterni, Ohimà dispone di un piano in Multistrato Marino con bordo arrotondato, prestandosi con eleganza a completare ed essere protagonista di atmosfere di prestigio.

Pareo

Forsix Design

Only for compactop
solo per compactop

The Pareo Collection offers a wide range of beautifully designed dining and coffee tables. Thanks to their clean yet detailed design, Pareo tables suit a variety of hospitality settings, available in square, rectangular and round versions. The aluminum-steel table frame, combined with Compact or Porcelain table tops, fits perfectly into even outdoor environments. Pareo Tables are made to be easily assembled and are available in a wide variety of bright frame colours and top finishes, perfectly matching your custom projects.
La collezione Pareo offre una vasta gamma di tavoli e tavolini dal design accattivante. Grazie alle loro linee essenziali e curate, i tavoli Pareo si adattano a diversi stili dedicati all'ospitalità e sono disponibili nella versione quadrata, rettangolare o rotonda. La struttura del tavolo, realizzata in acciaio e alluminio, abbinata ai piani in Compactop o Gres, si adatta perfettamente anche agli ambienti esterni. I tavoli Pareo sono realizzati per essere facilmente e velocemente assemblati e sono disponibili in un'ampia varietà di colori e finiture, perfetti per i vostri progetti personalizzati.

Surfy 2027 Tables & Desks

Table collection, meeting tables and modular desks, part of the "2027" system, suitable for completing hospitality and office settings with integrated design. The tables are made with painted metal structures and Laminate or Compactop table-tops, available with metal fairlead solutions.
Excluding Outdoor versions, the products are made with panels having Euroclass reaction to fire B-s1, d0 - Bfl - s1 according to EN 13501-1; Class E1 according to EN 120 regarding the release of Formaldehyde.

Collezione tavoli, tavoli meeting e scrivanie modulari, parte del sistema "2027", adatti a completare con lo stesso design progetti integrati di ospitalità ed ufficio. I tavoli sono realizzati con strutture in metallo verniciato e piani in Laminato o Compactop, disponibili con soluzioni passacavi in metallo. Strutture di sostegno con forma a cavalletto per essere snelle e resistenti, oltre che colorate a tutto tondo.
Escludendo le versioni Outdoor, i prodotti sono realizzati con pannelli aventi Euroclasse di reazione al fuoco B-s1, d0 – Bfl – s1 secondo la EN 13501-1, inoltre Classe E1 secondo la EN 120 in merito al rilascio di Formaldeide.

Tag Marble

Ilaria Marelli Design

Tag is a coffee table suitable for waiting areas, made with a minimal design metal frame. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.
Tag è un tavolino adatto ad aree attesa, realizzato con una struttura metallica dal design minimale. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurne la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Tag Porcelain

Ilaria Marelli Design

Tag is a coffee table suitable for waiting areas, made with a minimal design metal frame.
The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

Tag è un tavolino adatto ad aree attesa, realizzato con una struttura metallica dal design minimale.
I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superfice.

Together

Mark Sadler Design

Together is a solid and versatile table, suitable to be utilized with elegance in all modern environments. The legs, made of natural solid oak, are combined with a natural oak veneered top, thus obtaining a pleasant visual play of solid interlocking between the leg and the top. With a simple and elegant design, Toghether adapts to any decorative context, expressing the warmth of wood and its small details. The legs are always at the extreme of tops sizes.

Together è un tavolo solido e versatile, adatto ad essere inserito con eleganza in tutti gli ambienti moderni. Le gambe, realizzate in rovere massello naturale, sono abbinate ad un piano impiallacciato rovere naturale, ottenendo così un piacevole gioco visivo di solido incastro tra la gamba e il piano. Dal design semplice ed elegante, Toghether si adatta a qualunque contesto decorativo esprimendo il calore del legno ed i suoi piccoli dettagli. Le gambe restano sempre all' estremo.

ABOUT COMPACTOP: MUCH MORE THAN A MERE SURFACE

Gaber Compactops are made of high-pressure laminate, consisting of numerous layers of paper saturated with thermosetting resins and bonded through the combined action of heat and high pressure. The paper used on Compactop (around 70% of the complete composition) comes from production processes that conform with the FSC chain of custody; phenolic and melamine resins are all strictly water-based.
The result is a stable, non-reactive, homogenous, non-porous, antistatic, high-density product with a totally distinct physical and chemical profile from that of its constituent parts. Thanks to the heat and high-pressure treatment it they undergo, Gaber Compactops are exceptionally tough and resistant to scratches, abrasions, chemicals and heat, making them ideal for a wide range of contract applications Tops come pre-bored for Gaber kit bases.
Gaber Compactops conform to EN 438/1. According to this norm, the most important characteristics of Gaber Compactops are: their resistance to bumps, scratches, and wear and tear; color-fastness; easy cleanability; suitable for contact with food and general hygene.
UNI EN 438 is the reference standard for Compactop Gaber tops. This standard prescribes tolerances in the flatness of the product and on possible stains and other similar surface defects, for which the admissible size is based on a maximum contamination area equivalent to 1mm² / m² of laminate, concentrated in a single point or distributed in more points, proportional to the size of the sheet under inspection.

MAINTENANCE & CLEANING

No specific maintenance other than normal cleaning is required. The compact, non porous surface can easily be cleaned and disinfected with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

CHE COS'È IL COMPACTOP? MOLTO PIÙ DI UNA SEMPLICE SUPERFICIE

Il Compactop che Gaber utilizza per i propri tavoli è un laminato realizzato ad alta pressione, costituito da numerosi strati di carta impregnati con resine termoindurenti fenoliche e melaminiche, compattati attraverso l'azione combinata di calore ed alta pressione. Le carte utilizzate (circa il 70% della composizione dei piani) derivano da processi che seguono il protocollo della catena di custodia certificata FSC; le resine fenoliche e melaminiche sono tutte rigorosamente realizzate su base acquosa.
Il risultato è un prodotto stabile, non reattivo, omogeneo, non poroso, antistatico e di alta densità. Grazie al trattamento di alta temperatura e pressione cui è sottoposto, il Compactop è un materiale estremamente robusto: resistente a graffi, urti, abrasioni, sostanze chimiche e calore; caratteristiche che lo rendono il materiale ideale per una vasta gamma di applicazioni. I fissaggi dei piani Compactop sono già predisposti per i basamenti Gaber.
Il Compactop è conforme alla norma EN 438/1, secondo la quale, queste sono le principali caratteristiche di qualità di questo materiale: Resistente all'impatto, ai graffi e all'usura, stabile alla luce, facile da pulire, igienico, adatto al contatto con i cibi.
La UNI EN 438 è la norma di riferimento dei piani in Compactop Gaber. Tale normativa prescrive tolleranze nella planarità del prodotto e su possibili macchie e altri difetti superficiali simili, per i quali la dimensione ammissibile è basata su un'area di contaminazione massima equivalente a 1mm²/m² di laminato, concentrata in un unico punto o dispersa in più punti, proporzionale alla dimensione del foglio sottoposto a ispezione.

MANUTENZIONE E PULIZIA

Il Compactop non richiede alcuna manutenzione particolare al di là della normale pulizia.
La sua superficie compatta e non porosa può essere facilmente pulita e disinfettata con acqua calda, vapore e tutti i tipi dei più comuni detergenti e disinfettanti per uso domestico, purché non alcalini. Sono necessarie solo poche precauzioni, quali l'evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti fortemente abrasivi.

I fissaggi dei piani Compactop sono già predisposti per i basamenti Gaber. Il Compactop è conforme alla norma EN 438/1, secondo la quale, queste sono le principali caratteristiche di qualità di questo materiale: Resistente all'impatto, ai graffi e all'usura, stabile alla luce, facile da pulire, igienico, adatto al contatto con i cibi.
La UNI EN 438 è la norma di riferimento dei piani in Compactop Gaber. Tale normativa prescrive tolleranze nella planarità del prodotto e su possibili macchie e altri difetti superficiali simili, per i quali la dimensione ammissibile è basata su un'area di contaminazione massima equivalente a 1mm²/m² di laminato, concentrata in un unico punto o dispersa in più punti, proporzionale alla dimensione del foglio sottoposto a ispezione.

MANUTENZIONE E PULIZIA

Il Compactop non richiede alcuna manutenzione particolare al di là della normale pulizia.
La sua superficie compatta e non porosa può essere facilmente pulita e disinfettata con acqua calda, vapore e tutti i tipi dei più comuni detergenti e disinfettanti per uso domestico, purché non alcalini. Sono necessarie solo poche precauzioni, quali l'evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti fortemente abrasivi.

ABOUT FENIX COMPACTOP

Gaber's Fenix Compactop differ from standards as they are built with new generation materials on exposed coated surfaces, made using nanoparticles and acrylic resins. This coating avoid fingerprints on the material, make it soft-touch, heat-repairing, opaque and extremely resistant to bumps and scratches. In addition to this, the material is water repellent, hygienic, easy to clean and suitable for food-contact.

MAINTENANCE & CLEANING

No specific maintenance other than normal cleaning is required. The compact, non porous surface can easily be cleaned and disinfected with a soft cloth dampened with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

CHE COS'E' IL FENIX COMPACTOP

I piani Compactop Fenix di Gaber differiscono dagli standard in quanto prevedono l'utilizzo delle superfici esposte rivestite con materiali di nuova generazione, realizzati per mezzo dell'uso di nanoparticelle e resine acriliche. Tali rivestimenti rendono il materiale anti-impronta, morbido al tatto, termo-riparatore, opaco ed estremamente resistente ad urti e graffi. Oltre a ciò, il materiale è idrorepellente, igienico, resistente alle muffe, facile da pulire e adatto al contatto con alimenti.

MANUTENZIONE E PULIZIA

Il Compactop non richiede alcuna manutenzione particolare al di là della normale pulizia.
La sua superficie compatta e non porosa può essere facilmente pulita e disinfettata con un panno umido, acqua calda, vapore e tutti i tipi dei più comuni detergenti e disinfettanti per uso domestico, purché non alcalini. Sono necessarie solo poche precauzioni, quali l'evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti fortemente abrasivi.

ABOUT LAMINATED TABLE TOPS

Gaber's laminate table tops are composed of a high-pressure decorative laminate layer, with a recycled-wood chipboard core and ABS edging. Gaber's support materials are E1 according to tests stipulated by the European standards EN717 and EN120 regarding formaldehyde emission. Laminate tops come ready for Gaber kit bases.
The result is homogeneous, static, lightweight and highly customizable in terms of shapes and finishes.
Our laminate tops are manufactures according the following European Standards related to fire reaction: EN 13501-1:2009 B –s2, d0.

MAINTENANCE & CLEANING

Gaber laminated table tops do not require any special maintenance beyond normal cleaning.
Laminated surfaces can be easily cleaned with a soft cloth dampened with water, even with cleaning agents, but not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid wiping with abrasive substances or equipment.

COSA SONO I PIANI DEI TAVOLI IN LAMINATO?

I ripiani laminati che Gaber utilizza per i propri tavoli sono composti da uno strato di laminato decorativo ad alta pressione, supportato da un pannello di truciolare; quest'ultimo realizzato con i materiali di scarto delle normali lavorazioni del legno. I piani sono bordati con bordo in Abs. La tipologia di supporto utilizzato da Gaber per i propri piani è di classe E1 secondo i test espressi dalle normative europee EN717 e EN120 in materia di emissione di formaldeide. I fissaggi dei ripiani in Laminato sono già predisposti per i basamenti Gaber.
Il risultato è un prodotto omogeneo, antistatico, leggero e facilmente personalizzabile in forme e finiture.
I nostri piani in laminato sono realizzati secondo la normativa europea di reazione al fuoco EN 13501-1:2009 B –s2, d0.

MANUTENZIONE E PULIZIA

I piani Laminati di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia.
La sua superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detergenti per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

ABOUT IRON TABLE TOPS

Gaber's Iron table tops are made of composite materials: a non-deformable water-repellent multilayer wood-based core, covered in steel. The slim line result is elegant, stylish and practical. Iron tops come with metal inserts for Gaber Kit bases. These tough materials make iron tops suitable for indoor as well as outdoor use.

MAINTENANCE & CLEANING

Gaber's Iron table tops do not require any special maintenance beyond normal cleaning.
Its surface can be easily cleaned with a soft cloth dampened with water, even with household cleaning detergent, provided they are not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid rubbing with abrasive substances or devices.

COSA SONO I PIANI DEI TAVOLI IRON?

I sistemi Iron che Gaber utilizza per i propri piani dei tavoli sono realizzati da materiali compositi: il cuore del sistema è realizzato con un materiale multistrato, a base legnosa, resistente all'umidità, di grande stabilità. Il rivestimento in acciaio e lo spessore contenuto rendono il prodotto elegante, raffinato e pratico. I fissaggi dei piani Iron sono già predisposti per i basamenti Gaber. Le finiture disponibili lo rendono adatto anche all'uso per outdoor, grazie all'ottimale resistenza agli agenti atmosferici.

MANUTENZIONE E PULIZIA

I piani Iron di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia.
La sua superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detergenti per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

ABOUT TECHNO POLYMER TABLE-TOPS

The Techno Polymer Compounds Gaber uses on its table tops have high structural, heat and abrasion resistance. Gaber's technopolymer table tops are practical, shock-resistant, colorful and inexpensive.
Gaber technopolymers are non-toxic, stain-resistant, antistatic and UV-resistant and consequently have excellent resistance to atmospheric agents. All these materials are recyclable in the full respect of our Natural Environment. Gaber produces plastic injected materials without added chemicals and, as far as possible, recycled pre-used technopolymers are sourced as a base raw material. Technopolymer table top colors perfectly match the colors of Gaber's seating collection.

MAINTENANCE & CLEANING

The plastic surfaces of Gaber products can generally be cleaned with a cloth and warm water. For the most persistent stains, a small amount of liquid soap diluted in water may be used. Do not use acetone, trichloroethylene, ammonia, alcoholic substances and detergents that contain even just a small amount of these substances. We also recommend avoiding all types of abrasive and solvent substances or rough sponges.

COME SONO FATTI I RIPIANI IN TECNOPOLIMERO?

I piani in Tecnopolimero utilizzati da Gaber per i propri tavoli sono realizzati per mezzo del processo di iniezione plastica. I piani così realizzati sono pratici, resistenti agli urti, colorati ed economici. I compound di tecnopolimeri utilizzati da Gaber nella realizzazione dei propri prodotti sono caratterizzati da un'elevata resistenza strutturale, termica e all'abrasione. Il tecnopolimero è atossico, antimacchia, antistatico e anti-uv: qualità che lo rendono ottimamente resistente agli agenti atmosferici. I tecnopolimeri utilizzati da Gaber sono integralmente riciclabili, nel pieno rispetto del nostro Ambiente Naturale. Gaber produce articoli termoplastici senza additivi chimici e, ove possibile, vengono utilizzati tecnopolimeri riciclati derivanti da post-consumo. I colori dei ripiani dei tavoli corrispondono ai colori della vasta collezione di sedute Gaber.

MANUTENZIONE E PULIZIA

Le superfici in tecno polimero dei piani dei tavoli Gaber possono essere pulite con un panno umido e soffice imbevuto in acqua. Per le macchie più ostinate è possibile diluire in acqua del sapone neutro liquido con moderazione. Non utilizzare acetone, trielina, ammoniaca, sostanze alcoliche o detersivi che contengano anche piccole quantità di tali detergenti. Non utilizzare a contatto con il prodotto sostanze abrasive o solventi, strumenti di pulizia ruvid

TABLES BASES
COLLECTION

The maximum recommended dimensions of the table tops in the following chapter refer to the Gaber table tops.

Le dimensioni massime consigliate dei piani tavoli presenti nel seguente capitolo si riferiscono ai piani tavoli Gaber.

ALFIE

H72 4-Spur table base collection made of painted steel, Ø100mm metal painted column with cross. Adjustable feet.
Collezione basamenti per tavoli, H72, quattro razze in acciaio verniciato, colonna in metallo verniciato Ø100mm con crociera. Piedini regolabili.

LOL PLUS

The Lol Plus table bases collection is made of steel, the cross is made in die cast aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.
La Collezione di basamenti Lol Plus è realizzata in acciaio, la crociera è realizzata in presso fusione di alluminio, ed è dotata di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano in posizione verticale, rendono il tavolo facilmente accatastabile in spazi ridotti. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

OFFICE
AND WORKSPACE
SYSTEMS

Workstation 2027

This office furniture collection is intended for modern workplaces. It is distinguished by simple and rational worktop lines as well as slender and resistant support frames with a trestle shape. The service cabinets are suspended, a feature designed for easy and modern cleaning. The desks can be equipped with high-performance sound-absorbing screens, to improve privacy and the general acoustics of the workplace. The assembly systems have been especially designed to be fast and safe. The products are made with panels having Euroclass reaction to fire B-s1, d0 - Bfl - s1 according to EN 13501-1; Class E1 according to EN 120 regarding the release of Formaldehyde.

Programma d'arredo destinato ad uffici moderni con piani di lavoro dalle linee semplici e razionali, strutture di sostegno con forma a cavalletto per essere snelle e resistenti. I mobili di servizio sono sospesi, caratteristica pensata per una semplice e moderna pulizia automatica. Le scrivanie possono essere dotate di schermi divisori per migliorare la privacy e l'acustica. I sistemi di assemblaggio sono veloci e sicuri. I prodotti sono realizzati con pannelli aventi Euroclasse di reazione al fuoco B-s1, d0 – Bfl – s1 secondo la EN 13501-1, inoltre Classe E1 secondo la EN 120 in merito al rilascio di Formaldeide.

Cabinets

To store files and folders in a world of colours. These filing cabinets are suspended, on frames, for easy obstruction-free cleaning. The cabinets themselves, tough and resistant, come with quick and effective assembly fixings.
Drawers: On castors and fitted, these simple pieces help keep workspaces tidy and stationery in place.

Per contenere, archiviare e classificare, in un mondo a colori. I mobili contenitori sono sospesi, su strutture a cavalletto, per una semplice pulizia anche automatica. Le strutture, solide e resistenti, sono provviste di sistemi di assemblaggio veloci e sicuri.
Cassettiere: Su ruote e attrezzate, questi semplici complementi aiutano a contenere e ordinare le piccole necessità dell'ufficio.

Display

Display wall or floor fixed storage shelving can enhance your most ambitious projects. Available with a black, gold or white matt painted steel frame, without any visible welds, Display is set off with solid Fenix laminate shelves. Display is a modular piece, which can support up to 4 shelves and lends itself to completing and finely decorating walls and corners of your commercial spaces. For correct use, the structure must be fixed to the wall or floor.

Semplice ed elegante, Display decorerà con discrezione i vostri progetti più ambiziosi. Disponibile con struttura in acciaio verniciato nero, oro o bianco opaco, senza nessuna saldatura a vista, è impreziosito da solidi ripiani in laminato Fenix. Display è un elemento modulare, che può sostenere sino a 4 mensole e si presta a completare e decorare con raffinatezza pareti ed angoli dei vostri spazi commerciali. Per un corretto utilizzo, questo mobile deve essere fissato alla parete o pavimento.

POWER UNIT / UNITÀ DI ELETTRIFICAZIONE

The Power Unit includes a power socket (Schuko), a USB type A+C port and 2meter connection cable. Thanks to its stand-alone base, the power unit can fixed by screws or can be placed anywhere on the worktop without any limits, allowing the user to get the power wherever is needed. Thanks to a suspension braket the power unit can be easily mounted upside-down the worksurface, in order to keep free your desk.
Il sistema di elettrificazione da scrivania include una presa energia (Schuko), le porte USB A+C. e due metri di cavo di connessione. La sua base d'appoggio consente di essere fissata con viti o posizionata senza alcun vincolo al piano, offrendo la libertà di utilizzo ovunque ci sia una esigenza di collegamento. Il fissaggio sotto piano per mezzo di un'apposita staffa permette di liberare le superfici d'appoggio, in questo modo si può sfruttare al massimo lo spazio della superficie di lavoro.
